COMP10013 – Dynamic Web Technologies

COURSEWORK ONE (CW01)
Mobile Application

Student and Coursework Details:

Student Name:	Corey Black
Banner ID:	B01651145
Academic Year	2025-2026
Module	COMP10013 – Dynamic Web Technologies
Term	2
Examiner	Dr Pablo Salva-Garcia

Application Details

**Consider adding more rows if more information (e.g., more user roles) is needed.*

Application name:	music-app
Website URL (if published):	http://dwt-music.vercel.app/
Password for website's super admin feature access (if required):	Not required
Student's GitHub Repository for your project:	https://github.com/kawrae/music-app

Consent of Publication

I give my consent for this coursework and its content (including any screenshots or visual content it contains) to be potentially published and shared on the programme's official social media channels (e.g. LinkedIn) for promotional and educational purposes.	**NO**

UWS Assessment Student Declaration

This Declaration must be completed and submitted along with your assessment. Please ensure sections 1 and 2 are completed before submission.

- For written assessments, insert the Declaration as the first page of your document.
- For assessments not in the written format (e.g. video, audio, presentation, or practical work), submit the Declaration as a separate file.
- For group assessments, unless otherwise directed by your lecturer, the group may submit a single shared declaration.

1. Declaration that this is your OWN work	
All UWS students are expected to uphold the values of academic integrity: UWS Student Academic Integrity Procedure. Academic Integrity means a commitment to, and upholding of, the values of honesty, trust, fairness, respect, responsibility and courage in learning, teaching, research and engagement with the University community. You are responsible for ensuring that the work you submit is your own, and that any use of Generative AI follows the guidance provided for the assessment.	
I confirm this assessment is my own work and complies with the guidance provided.	**YES**
2. Declaration of appropriate use of Generative AI	
You must check the assessment guidance to understand what uses, if any, of Generative AI are permitted for this assessment.	
I used Generative AI for this assessment.	**NO**
If you answered **YES**, explain briefly what Generative AI tools you used and how you used them:	

Extenuating Circumstances

The University recognises that, from time to time, you may encounter circumstances that affect your ability to complete or submit an assessment. If this happens you can submit an Extenuating Circumstances Submission (ECS). In submitting each piece of coursework or completing an examination or class test, you are confirming that you are 'fit to sit' the assessment and wish that any mark achieved for that assessment should stand. You can submit an ECS up to 48 hours after the assessment deadline, including where you have submitted the assessment but believe your academic performance has been affected by extenuating circumstances. The School Assessment Board will know that an ECS has been submitted when recording your module marks. See the UWS Extenuating Circumstances Submission Procedure for further guidance.
